

Falease'ela River Walk.

The Falease'ela River Walk is an exhilarating hike that should not be missed by those looking for adventure and wishing to experience Samoa's pristine natural environment..

The guided tour takes you through river bed and banks of the Liua le Vai o Sina River, located in Falease'ela in Lefaga Bay. It is a wet and wild adventure, but what more could you ask for on a hot day in Samoa.

The tour takes anywhere from 3 - 6 hours depending on your pace. Olsen and Fly, the guides, will lead you up and around waterfalls and lava formations that have formed this magnificent natural setting. Fly, who is the younger and more acrobatic of the two, will perform jaw-dropping climbs and jumps that will tempt only the daring traveler to follow.

For those who prefer a more leisurely trek, Olsen will be happy to share his wealth of knowledge about Samoa's natural environment and will be able to answer any questions you may have about life in Samoa. However you take the tour, you will be telling your friends that Samoa has way more to offer than beautiful beaches, and they should not miss out on the Falease'ela River Walk.
